研究成果目錄：(一) 論文及著述

A. 期刊論文

2. Role of adiponectin gene variants, adipokines and hydrometry-based percent body fat in metabolically healthy and abnormal obesity. Chin-Sung Changa, Yan-Jia Lu, Hsiu-Hao Chang, Shih-Han Hsu, Po-Hsiu Kuo, Chi-Chang Shieh, Wei-Jen Yao, Mei-Chi Hsu, Kung-Chia Young, Wen-Yuan Lin, Kuo-Chin Huang, Chih-Hsing Wu, Yau-Sheng Tsai. Obesity Research & Clinical Practice, 2016 May [Epub ahead of print]

7. Quantifying midbrain serotonin transporter in depression: a preliminary study of diagnosis and naturalistic treatment outcome Tsai HC, Lin SH, Chen PS, Chang HH, Lee IH, Yeh TL, Chen KC, Chiu NT, Yao WJ, Liao MH, Yang YK

15. Validation of Memorial Sloan-Kettering Cancer Center nomogram for prediction

B. 研討會論文

1. Wei-Jen Yao, Chih-Hsing. WuGlucose Metabolism of hepatic muscular, and adipose tissues in obesity before and after bariatric surgery. Annual Congress of the European Association of Nuclear Medicine(EANM 2016)

2. Wei-Jen Yao, Nan-Tsing Chiu, C.Hung. Clinical Value of I-131 SPECT/CT over planar imaging in Detecting Metastases in Patients with Differentiated Thyroid Carcinoma. Annual Congress of the European Association of Nuclear Medicine(EANM 2015)

3. Wei-Jen Yao, Nan-Tsing Chiu, Bi-Fang, Lee. Role of Ultrasonography In Incidental Focal Breast Uptake at 18F-FDG PET-CT. Annual Congress of the European Association of Nuclear Medicine(EANM 2014)

4. Wei-Jen Yao, Wen-Hong Yang, Cheng-Yang Chou Optimizing diuretic protocol for detecting pelvic malignancies with FDG PET/CT. Annual Congress of the European Association of Nuclear Medicine(EANM 2012)
